Subject: Following up on Check-in

Hey guys. The check in this week was scheduled when I have a standing meeting so I had to miss it. Hopefully that's a one-time occurrence and I can make the next one. In the meantime I wanted to check in and see if there were any updates on:

1. TX Regional Haze
2. TX SO2 Transport

These are the two areas I am aware of where my group might need to draft/support/review R6 products in the near future. I know staff conversations are happening on both of these things, but I want to make sure I know what you guys expect/need from us. Let me know how I can help/

If there are any other areas I'm overlooking, please let me know those as well, but I think those are the two big ones in my group.

Thanks!
